## Professional Summary

BCA graduate and skilled Python full-stack developer with academic proficiency in C, C++, Java, and Python. Experienced in database management, web development, and software engineering principles from internship at Codebind Technologies, building web applications and optimizing databases. Proficient in data science and machine learning, delivering innovative, efficient solutions for complex technical challenges.

## Skills

- Decision-making
- Front-end development
- HTML, CSS, JavaScript
- Databases, SQL
- PHP
- Front-end frameworks
- Full-stack development
- Application debugging
- Python, Java, C
- Database management
- Machine learning
- Data analysis
- Problem-solving
- Critical thinking
- Software testing
- Application deployment
- Object-oriented programming
- Software development
- Data science

## Experience

- **Intern**  
Codebind Technologies  
May 2025
  - Developed and tested web applications using HTML, CSS, JavaScript, and PHP.
  - Debugged code to enhance application performance and user experience.
  - Implemented SQL-based database solutions to improve data management.

## Education

- **BCA in Computer Applications**  
Bangalore University, Bangalore  
2025

## Certifications

- Certificate of Merit in Data Science
- Training Certificate in Web Development
- Certificate of Merit in Power BI
- Certificate of Participation in Corporate Training
- Certificate of Merit in Graphic Designing
